

Healing Biologix

Innovating Health Solutions

Post-Operative Surgical Dressings

Providing healing, support, and extended care to patients recovering from surgery

- Provide a turn-key solution to physicians in management of post-operative patient dressings
- Non-hydrolized native collagen to patients through our DME customized program
- Increase patient satisfaction and compliance
- Streamline billing and provide verification of benefits; improve physician cash flow

Why Healing Biologix

Compliance

Increase patient compliance by providing up to 30 days of post-op surgical dressings delivered directly to the patients front door

Treatment Plan

Eliminate patient confusion by providing a post-op surgical dressing protocol to follow

Convenience

Eliminate the need for the patient to search for post-operative dressings at a pharmacy

Clinical Validation

Collagen is known to help with accelerating healing in wounds as well as reducing infection

Incision/Wound Qualifications

Incision/Wound **MUST** meet one of the following criteria to be eligible for postoperative DME dressing:

- ✓ Full thickness wound
- ✓ Mild to moderate exudate
- ✓ Wound has stalled in healing

Physician Support

- No up-front costs
- Healing Biologix provides customer support and follows up with patients to ensure compliance and answer technical questions
- DME billing support including pre-verification of benefits
- Orders will ship directly to the patient's front door and will be received within 24-48 hours after coming home from surgery
