

# COMPLETE™-AA

## WOUND CARE

Multi-Layer Perinatal Tissue Allografts

COMPLETE™ - AA Wound Care Perinatal Tissue Grafts are processed to retain all naturally occurring extracellular matrix components

### ABOUT COMPLETE™-AA

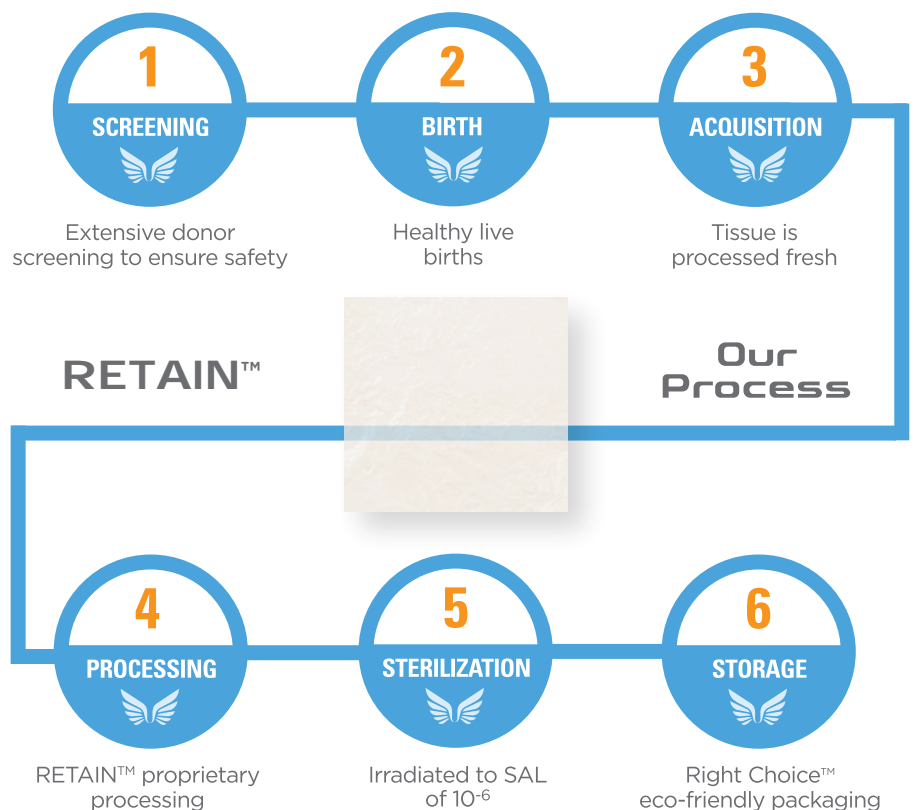

- Received TRIP and TRG designation as a 361 HCT/P allograft.<sup>1</sup>
- Samaritan issued HCPCS Code Q4303 for COMPLETE™-AA Graft.<sup>2</sup>
- COMPLETE™-AA grafts are applied as an anatomical barrier providing mechanical protection.<sup>3</sup>

### SAFETY

- Screened healthy mothers donate live birth tissue.
- COMPLETE™-AA grafts are processed in accordance with FDA regulations and AATB standards.
- Terminal Sterilization method provides sterility assurance level (SAL) of  $10^{-6}$

### EASY TO USE

- Best in-class graft handling.
- Ambient temperature storage with a 5-year shelf-life.
- Adheres easily to wounds of all shapes and sizes.

*The **RETAIN™** proprietary processing method eliminates harsh mechanical and chemical washes prior to sterilization to ensure maximal preservation and retention of the naturally occurring components of the birth tissue.*
